Ketan Mehta - President and CEO - Tris Pharma

Ketan Mehta is the founder and CEO of Tris Pharma Inc., a pioneer in the development of patient-friendly oral controlled-release medications through its proprietary LiquiXR® platform.

The LiquiXR® platform enables patients to take oral extended release medications either as a liquid, a chewable tablet, an orally disintegrating tablet (ODT), or a swallowable tablet – all having the same PK profile. LiquiXR® has yielded a patent portfolio of 100+ patents and numerous FDA approvals including the first-ever 24-hour Extended-Release (ER) oral liquid and first-ever chewable ER tablet for ADHD patients.

Ketan is a pharmaceutical scientist by education and remains involved in all technology-based innovations at Tris. He is co-inventor of 50+ patents covering a broad spectrum of pharmaceutical science and technology.
